### LE PAROLE INTOLLERANTI

Nella scelta delle parole da mappare, abbiamo lavorato sui termini e le offese più ricorrenti sui social, evidenziati anche nelle ricerche scientifiche, che si sono occupate di studiare i meccanismi implicati nell'atteggiamento discriminatorio.

Froci • perversito • checca • finocchio pompiarino • culattone • bocchinaro • rottinculo • culanda • leccafiche • ricchione invertito • piglianculo • ciuccia cazzi • passiva camionista • deviato

### IL FATTORE AGGRESSIVITÀ

Il grafico mostra la quantità di messaggi aggressivi, rilevati secondo un'ulteriore metodica di analisi: si è proceduto a estrarre i gruppi di parole più ricorrenti nei messaggi intolleranti, al di là di insulti e parole offensive. Il software è stato infatti "istruito" per estrarre i tweet più aggressivi, evidenziandone il livello di virulenza: la valutazione è stata orientata dalle categorie utilizzate dalla scala MOAS (Modified Overt Aggression Scale). Tale metodica, in questa sua prima forma sperimentale, si è dimostrata utile per meglio comprendere non solo la negatività, gli atteggiamenti intolleranti e discriminatori, ma anche l'orientamento aggressivo dei messaggi.
